**NEW CLASSIC DASH TO ENHANCE
 1968-70 DODGE/PLYMOUTH B-BODY**

*February, 2014
 FOR IMMEDIATE RELEASE*

Mopar enthusiasts with 1968-70 Dodge Chargers and Coronets, plus owners of Plymouth Road Runners and GTXs, can revitalize their ride’s interior with a door-to-door 2-piece replacement dashboard from Classic Thunder Road Dash. Replacing the factory instrumentation with a full complement of Auto Meter or other gauges is an easy do-it-yourself proposition.

Classic Dash panels are manufactured from durable, UV resistant ABS composite and available in both carbon fiber and matte black finishes. Panels are available separately, or with a selection of gauges.

Both mechanical and electric gauges are offered, while complete color-coded wiring sets and detailed instructions enable do-it-yourselfers to easily perform professional quality installations. The Classic Dash panel itself is a bolt-in replacement for the OEM unit and no fabrication is necessary.

In addition to the new 1968-70 B-Body kits, Classic Dash has custom instrument cluster panels for many other Mopar and other applications. For details go to www.ClassicThunderRoad.com, or call the Classic Dash tech reps factory direct at 866-882-3525.
