FOR IMMEDIATE RELEASE

NEW CLASSIC DASH PANELS FOR 1988-94 CHEVY/GMC TRUCKS

Trucking enthusiasts with 1988-94 Chevrolet and GMC pickups who really want to know what's going on with their rides can easily replace minimalist factory instrumentation with a new custom panel from Classic Dash that can be loaded with a full complement of Auto Meter or other gauges.

Classic Dash panels are manufactured from durable, UV resistant ABS composite and available in a choice of three finishes; brushed aluminum, carbon fiber and matte black. A wide variety of gauge colors and styles can be employed to match or compliment the dash finish.

Both mechanical and electric gauges are available, as are complete color-coded wiring sets and detailed instructions enabling do-it-yourselfers to easily perform a professional quality installation. The Classic Dash panel itself is a bolt-in replacement for the OEM unit and no fabrication is necessary.

For additional information go to www.ClassicThunderRoad.com, or call the Classic Dash tech reps factory direct at 866-882-3525.

High-Res COLOR Image Available For Download

This photograph, as well as the text of this press release—is available on-line. To download a high-resolution JPEG image you can visit our E-PR website for the automotive press:

www.electronic-pr.com

It will be filed under "Automotive" for six months from issue date, after that it will be filed under "Archived" releases.

You can also access the page directly by using the following address:
