New T-Shirts From Art Morrison Ent.

Noted chassis and suspension components manufacturer Art Morrison Enterprises has released a pair of colorful new T-shirts that feature a couple popular vehicles that are based on the company’s GT Sport Chassis.

One shirt features a cut-away illustration of a 1955 Chevrolet with the latest AME chassis with a multi-link IRS. With well over a thousand chassis sold, Morrison’s Tri-5 GT Sport chassis is recognized as the industry leader in “resto-mod” conversions. Not surprisingly, “shoebox” Chevys equipped with AME chassis have received substantial magazine and internet coverage—plus have been honored with many important awards. On the front of the shirt is a small Morrison GT Sport logo.

The second shirt has a cut-away illustration of the 1950 Chevy “Farm Truck” that’s been prominently featured in the media. It too is based on a Morrison GT Sport chassis.

Both shirts are made of heavy-duty cotton and vividly silk-screened. They are available in sizes S to XXL for \$24, and a dollar more for XXXL. For complete details on AME’s apparel line go to www.artmorrison.com. Remittance can be mailed to 5301 8th St. East, Fife, WA 98424, or orders can be called in to 800-929-7188.
