Many New Products Featured In 2016 Art Morrison Catalog

Noted chassis and suspension components manufacturer Art Morrison Enterprises has added a variety of new products to its already-impressive roster, and provided detailed information in the firm’s new 4-color catalog for 2016.

AME has expanded its lineup of GT Sport chassis—which are a precise bolt-in replacement for OEM frames and the preferred foundation for “resto-mod” applications. Morrison’s engineering team has also introduced a compact version of its highly acclaimed Multi-Link I.R.S.

The new AME catalog also serves as a valuable resource guide for do-it-yourselfers building a street rod, muscle car, classic truck or race car. Products range from complete subframe assemblies to individual components. Virtually everything needed to build or update a chassis is detailed in the 72-page publication.

Both low and high resolution PDF files of the catalog can be downloaded at www.artmorrison.com, while a printed copy can also be ordered. Now celebrating its 45th year in business, Art Morrison Enterprises is located at 5301 8th Street East, Fife, WA 98424. Personalized assistance is available by calling 800-929-7188.
