**AVIAID EXPANDS DRY
 SUMP TANK LINEUP**

*May, 2016
 FOR IMMEDIATE RELEASE*

Aviaid, the company that pioneered dry sump lubrication systems in auto racing, has expanded its line of “universal” dry sump tanks to include 6", 7.5" and 9" diameter models. They are offered in a variety of heights and capacities—ranging from one to six gallons.

The tanks are made from aluminum and feature special internal baffling to ensure optimum oil control under hard acceleration, deceleration or cornering. They come with provisions for a pressure outlet, scavenge return, drain plug, breather, vent connection and a filler cap. Both standard AN-12 or AN-16 and optional size fittings are available. Insulated mounting straps are included, as is an inlet filter on new 7-1/2" tank offerings. Soon to be included on 6" and 9" tanks.

Available tank accessories include a probe-style heater, sight tube and multiple inlets.

For additional information visit www.aviaid.com, or contact the company at 818-998-8991 for tech support. Literature on Aviaid’s tank line is available upon request. Write to Aviaid, 10041 Canoga Ave., Chatsworth, CA 91311 or send an e-mail to: AviaidHP@Gmail.com.
