 FOR IMMEDIATE RELEASE*

***ProLid COMMERCIAL TONNEAU
 COVER INTRODUCED BY SNUGTOP***

Industry-leading truck cap and tonneau cover manufacturer SnugTop has added a line of heavy-duty lids designed for commercial use to its prolific offerings. Called the ProLid, it is ideally suited for fleet applications.

Like all SnugTop tonneau covers, the ProLid is application specific and underscores the firm’s “The Perfect Fit” motto. It is available for most late model Chevy/GMC, Ford, Dodge, and Toyota pickups for use with long and short beds, as well as many earlier model trucks.

Durability is a key attribute of the ProLid thanks to honeycomb-reinforced fiberglass construction, stainless steel hinges and heavy-duty hardware. Special heavy-duty gas props with the SnugTop Easy Lift assist are engineered to provide long-term reliable service in a frequent-use environment and a new “thumb twist” lock facilitates ease of operation. The ProLid overlaps the tailgate to provide extra security.

ProLids have a precise smooth surface, finished edges, and automotive double-bulb seals to protect cargo from the elements. ProLids are painted to match factory colors using the DuPont ChromaPremier basecoat and clearcoat process.

For additional information go to SnugTop’s newly redesigned website, www.snugtop.com, or call 562-432-5454 to speak with factory tech reps. All SnugTop products are proudly manufactured at the firm’s block-long facility in Long Beach, California.
