## MANLEY PERFORMANCE ISSUES BIG 50th ANNIVERSARY CATALOG

June, 2016  
 FOR IMMEDIATE RELEASE

The new 192-page 2016 catalog now available from Manley Performance is a graphic testament as to how much the company has grown in its 50 years. From its founding in 1966, the Lakewood, New Jersey based company has expanded its product line to include most all internal engine components, while likewise continuing to develop industry-leading valve train gear.

One-piece stainless steel and titanium valves are, of course, what the company is best known for. And the new catalog reflects expansions to the line. Other key products in the Manley Performance line include 4340 and 300M forged steel rods, Platinum Series forged 2618 alloy pistons, crankshafts, NexTek® valve springs, retainers and pushrods.

Also reflected in the new 2016 catalog are a number of new vehicle and engine family additions, including the GM LT Series and the Ford Eco-Boost, Raptor and Coyote, as well as many Import applications and diesels. Complete rotating assemblies are available for many popular engines.

The catalog is available online for downloading at [www.manleyperformance.com](http://www.manleyperformance.com) and a printed version—plus a special Manley T-shirt—are offered for \$10. Please remit to Manley Performance, 1960 Swarthmore Ave., Lakewood, NJ 08701. Call 732-905-3366 for personalized assistance.

### High-Res COLOR Image Available For Download

This photograph, as well as the text of this press release—is available on-line. To download a high-resolution JPEG image you can visit our E-PR website for the automotive press:

[www.electronic-pr.com](http://www.electronic-pr.com)

It will be filed under “Automotive” for six months from issue date, after that it will be filed under “Archived” releases.

You can also access the page directly by using the following address:

[www.electronic-pr.com/pr/new\\_mp\\_1010.html](http://www.electronic-pr.com/pr/new_mp_1010.html)

After six months use the address below.
