FOR IMMEDIATE RELEASE

CUSTOM ENGRAVING FROM UNDERCOVER INNOVATIONS

There's nothing that quite makes a statement about an engine than custom valve covers. Undercover Innovations, the underhood experts, offers a variety of polished aluminum valve covers that can be engraved to the customer's specifications.

Undercover Innovations is licensed by General Motors and can reproduce a wide variety of popular Chevy logos on valve covers—as well as on the company's other products, which include show panels and door sills.

Custom engraving can be done to match supplied artwork, or specified from a multitude of standard type styles.

For additional information call Undercover Innovations at 661-325-4506, or visit www.UndercoverInnovations.com. The company is located at 3624 Buck Owens Blvd., Ste. 12, Bakersfield, CA 93308.
