

## **ARP® RELEASES 2017 CATALOG**

Automotive Racing Products, Inc., the industry-leading fastener manufacturer known as “ARP,” has just published its new 128-page full color catalog for 2017. It contains over 4,500 fastener kit part numbers, including many new ones.

There is also a wealth of technical information in the publication, ranging from metallurgical data to important advice on proper assembly and maintenance practices related to various fastener types.

ARP’s offerings include complete Engine & Accessory Fastener Kits containing a dozen key bolt groups for most popular engines, bolt and stud kits for individual applications, and “bulk” fasteners by size in handy 5-packs. All fasteners are manufactured in-house at ARP’s California facilities.

The catalog is available for online viewing or downloading at [www.arp-bolts.com](http://www.arp-bolts.com), or a printed copy is available free upon request.

Call toll-free 800-826-3045 or write to ARP at 1863 Eastman Ave., Ventura, CA 93003.
