**SPORTSMAN REFILL PUMP  
 FROM NITROUS SUPPLY**

January, 2019  
 FOR IMMEDIATE RELEASE

Pro Mod racers and other competitors who are high volume users of nitrous oxide can benefit from the new Sportsman Nitrous Pump available from Nitrous Supply. The handy refill station is designed for quickly transferring nitrous oxide from large 48-64 lb. capacity “mother bottles” to smaller vehicle-mounted bottles.

Ideally suited to keeping N<sub>2</sub>O bottles topped off for peak efficiency, this economical pump is designed to operate at 100 psi air pressure, easily attainable through most shop and trailer-mounted compressors. Use of a filter to assure a flow of dry air is imperative.

Nitrous Supply’s “Sportsman” pump is priced significantly lower than the “Pro” pumps the firm sells for high volume commercial applications, and is a cost-effective investment for serious racers.

For additional details visit [www.NitrousSupply.com](http://www.NitrousSupply.com) or call 714-373-1986. Founded by industry pioneer Mike Thermos, Nitrous Supply is located at 15552 Producer Lane, Huntington Beach, CA 92649.
