

## **NEW 2020 CATALOG FROM ART MORRISON ENTERPRISES**

Noted chassis and suspension components manufacturer Art Morrison Enterprises has released its new catalog for 2020. The publication details AME's wide range of products from the popular bolt-on GT Sport chassis to a myriad of essential components for do-it-yourself builders. Included in the new additions is an elegantly engineered GT Sport chassis for Chevy C10 truck applications.

Morrison chassis and subframes are recognized as the preferred choice for Restomod applications, and have helped builders win many prestigious awards—including the 2020 Ridler. The firm's highly regarded Multi-Link I.R.S. has also helped racers win important championships.

The full-color publication can be viewed online at [www.ArtMorrison.com](http://www.ArtMorrison.com), or a printed copy is available upon request. Call 800-929-7188 for personalized technical assistance, or send your catalog request to Art Morrison Ent., 5301 8<sup>th</sup> Street East, Fife, WA 98424.
