ARP Supports Street Rodding Through Award Sponsorships

Many of the nation's premiere car builders employ ARP fasteners in their creations, both as essential to engine performance and reliability, as well as the "finishing touch" that comes with the company's polished stainless steel bolts and studs. Accordingly, the Ventura, CA based firm proudly has continued its support of street rodding's most prestigious awards, the "America's Most Beautiful Roadster" trophy and the Al Slonaker Memorial award for the best non-roadster at the Grand National Roadster Show.

The AMBR award was first presented in 1950 by Al Slonaker, founder of the Grand National Roadster Show. An award, created in his honor, was debuted in 2020 to give due recognition to the best car or truck not competing for the AMBR award at the GNRS. Both winners will receive a \$12,500.00 check from ARP, as well as a "keeper" trophy. Their names will be engraved in the permanent trophies that travel with the show.

Now in its 72nd year, and recognized as the longest running indoor car show in the world, the event will take place from January 28 through the 30th at the Los Angeles County Fairgrounds in Pomona, Ca. For details on the GNRS go to www.rodshows.com and for information on ARP fasteners, or to request a free copy of the 2022 catalog, visit www.ARP-bolts.com.
