## ***ARP's 2025 Catalog Comes With A Bonus***

Industry-leading fastener manufacturer ARP has just published its updated full-line catalog for 2025. The 180-page, full color publication details the 5,500-plus fastener kits manufactured by ARP — with a bonus 22” x 11” pull-out poster of the record-holding “Speed Demon” streamliner.

A large section is devoted to valuable technical information, with several dozen pages devoted to the science of fastener manufacturing and their proper use.

In addition to the many kits covering engine, driveline and accessory fasteners, the catalog details the many specialty products and tools from ARP that facilitate efficient engine assembly.

The catalog can be view online, downloaded as a PDF, or a printed version can be requested at [www.ARP-bolts.com](http://www.ARP-bolts.com). Personalized technical assistance is available by calling 800-826-3045.
